

150W Folding Portable Solar Kit

\$895

150W Mono Crystalline Foldable Solar Panel

Panel Features include:

- Folding solar blanket
- Open Circuit Voltage: 18.6V
- Max Current: 8.11A
- Dimensions Folded: 385x350x70mm
- Dimensions Unfolded: 1598x1020x5mm
- Comes with 5m cable with Red Anderson plug for easy connection to regulator or AOR van

20A 12V Solar Regulator

PWM regulator with LCD displays shows different working status including:

- Battery charge voltage
- PV Charge current
- Total PV Charge AH
- Adjustable constant charge voltage settings for Battery type
- Load monitoring and low voltage disconnect features
- Red and Gray Anderson Plugs for easy connectivity exact specifications of each AOR model.

Heavy Duty Alligator Battery Clips

- Easy connection to 20A regulator and battery

150W Flexible Portable Solar Kit

\$495

150W Mono Crystalline Flexible Solar Panel

Panel Features include:

- 3mm Flexible panel with eyelets for easy securing
- Open Circuit Voltage: 23.4V
- Max Current: 7.58A
- Dimensions: 1500x675x3mm
- Comes with 5m cable with Red Anderson plug for easy connection to Regulator or AOR van
- Storage bag for protection

20A 12V Solar Regulator

PWM regulator with LCD displays shows different working status including:

- Battery charge voltage
- PV Charge current
- Total PV Charge AH
- Adjustable constant charge voltage settings for Battery type
- Load monitoring and low voltage disconnect features
- Red and Gray Anderson Plugs for easy connectivity

Heavy Duty Alligator Battery Clips

- Easy connection to 20A regulator and battery
